

ENVIRONMENTAL POLICY

LG Chem Michigan, Inc. is a leading manufacturer of Li-ion Batteries, and Li-ion Battery Packs for the Electric Vehicle market. As the manufacturer of a green product, we feel compelled to conduct our operations with an environmental stewardship mindset. As part of that mindset, we are committed to protecting the environment and preventing pollution. To this end, LG Chem Michigan Inc. has implemented an Environmental Management System in order to continually improve our environmental performance. To achieve this, we must:

- **L**essen our Environmental Impacts
- **G**row an Environmentally Sustainable Employee Culture
- **C**ontinually Improve our Environmental Performance
- **H**eighten our Environmental Awareness
- **E**nsure Regulatory Compliance
- **M**inimize Waste

Top Management is responsible for the implementation of this policy and will ensure that environmental issues are given adequate consideration in strategic planning as well as in day-to-day operations.

Nicholas A. Kassanos, President
